To Whom It May Concern:

Please let this letter serve as recommendation for The Sack Co. and SCM, Inc. Gray Construction recently had the pleasure of working with The Sack Co. and SCM, Inc. on a project where they successfully installed two machines for a manufacturing facility project in Georgia.

The Sack Co. and SCM, Inc. were responsible for the unloading, uncrating and installation of these large, ten million dollar machines. They performed these tasks with no delays or incidents. We were more than pleased with their performance and have procured an additional contract where they will perform the same duties on a third machine.

Gray Construction is looking forward to future endeavors with The Sack Co. and SCM, Inc.

Regards,

A handwritten signature in blue ink that reads 'Daniel Pittman'.
